

Dear Colleagues and Friends,

It is my great pleasure to welcome you to the 2nd International Conference of Technology, Science, and Administration – 2022 (2nd ICTSA – 2022). We, The National University , are so happy to be one of the organizing this great second international event in association with other Yemeni universities of a high repute. We feel so proud to see such great academic work realise this incredible achievement. In spite of our suffering in all the fields due the damned war and the unjust siege, we are determined to overcome all the obstacles and share the world in the fields of engineering, science, administration, medicine and education. This is a great opportunity to gather with many researchers and to be a part of the discussions and presentations by leading experts in different countries about the new advances and innovations in the scientific, engineering and medical knowledge.

I believe that our participation in the second cycle of ICTSA - 2022 will be a great opportunity for our university to move on the right path towards the building new social and academic relationships with new people from different societies, which in turn helps us to continue exchanging and discussing scientific ideas and proposals with them.

I'm pretty sure - this conference will be stimulating and productive. Personally, I hope that you will very much enjoy it and benefit.

yours sincerely,

Mohammed Qahtan, PhD

President of National University
